## Curriculum Vitae

### Summary & Aspirations

During 35 years of clinical practice in both NHS and Private General Dental Practice as associate, sole owner and partner and the last 8 years as a practice adviser for Denplan / SHP and acting as an Expert Witness in dental litigation and disciplinary cases at GDC I reflect on the crucial importance of mentoring team members and colleagues through various points in their careers offering guidance from “Lost to Good to Great”.

### Professional Qualifications

BDS (Dund) 1987  
MJDF RCS (Eng) 2011  
MFDS RCPS (Glas) 2013 (non-examination)  
FCGDent 2023  
CUBS Civil Cert 2015  
Enrolled - Adv Certificate in Mentoring in Dental Practice - UCLan

### Current Positions

#### General Dental Practice

I am currently in a GDP partnership with an additional associate GDP , Orthodontic Specialist, Dental Hygienist, Dental Therapist, four nursing/reception staff and a Practice Manager. We all work flexible hours in a two-surgery practice where our main focus is the delivery of preventatively based Denplan Excel family dental care with an element of surgical and restorative implant dentistry and other elective aesthetic procedures utilising CAD/CAM technology.

#### Practice Adviser

Since 2015 I have provided Simply Health Professionals with consultancy services as a Dental Practice Adviser. More recently I have been appointed to a more senior position within the advisory team shadowing other advisors, and currently sit on the Denplan Excel Board which oversees the Denplan Excel quality assurance programme. A significant part of the adviser role involves peer review of general dental practitioners with a focus on practice risk management and clinical care including the auditing of patient records focussing on consent,

clinical risk assessment, medical history taking, periodontal monitoring and radiographic practice.

#### Expert Witness

I have been trained as an expert witness and hold the Cardiff University Bond Solon Civil Expert Witness Certificate. I have provided services as an Expert Witness in General Dental Practice since April 2014 and have completed over 300 litigation reports almost exclusively instructed by defence and a small number of personal injury reports. I have been involved in a number of GDC Fitness to Practice cases offering independent opinion by written report but also in person at legal conference and giving oral evidence at Professional Conduct Committee hearings.

#### Mentor

I have been guiding colleagues and practice team members in excellence as part of the Denplan Excel Programme and on career development based on my leadership role in practice.

I have been approached on a number of occasions to help deal with more challenging aspects of practice helping to guide colleagues through issues of dispute and questions over performance.

To crystallise this experience to best effect for my Mentees I have accepted an offer to study for an Advanced Certificate in Mentoring in Dental Practice at the University of Central Lancashire beginning Jan24.

My offering is to share this experience to guide colleagues who may feel lost and to those who wish to excel in their field of practice.
